The University of Texas at Austin
Hildebrand Department of Petroleum and Geosystems Engineering

Qualifying Exam Form

Select 3 of the 6 courses listed below to satisfy the Qualifying Exam requirement, and indicate if it's your first time or second time enrolled in the required classes.

Students should pass each of their selected 3 signature classes so that the combined 3-class GPA is 3.3 or higher (example: 1 A & 2 Bs). A course will need to be repeated if the grade is not a passing grade resulting in a 3.3 GPA specifically for the three qualifying courses chosen.

Upload signed form in UT Box folder for PGE Grad Office files.
