## WORK EXPERIENCE

---

### Diamondback Energy

May 2024 – Aug. 2024

*Completions Engineering Intern*

*Midland, TX*

- Analyzed friction reducer usage during stimulation from 48 wells in the Midland Basin and created model optimizing friction reducer usage by formation.
- Worked with completions engineering team, company consultants, and service providers to conduct in-field testing on multiple friction reducer products, analyze data, and create models for optimal friction reducer usage.
- Utilized Spotfire, Wellview, and Excel to compile and analyze friction reducer loadings and related data from historical and ongoing wells.
- Acquired relevant operational experience by participating in daily operations calls, in-field meetings, and spending time on site with consultants and crew.
- Friction reducer model optimized costs by 17% and resulted in a \$4 per lateral ft. savings.

### PMC Parking Management

Aug. 2022 – Aug. 2023

*Valet Team Lead*

*Austin, TX*

- Provided valet and luggage services to hotel guests at the DoubleTree Suites in Downtown Austin.
  - Responsible for the management of up to 120 cars and the safekeeping of guests' luggage and belongings.
  - Working with hotel management to ensure guests' cars and luggage are brought to them when requested.

## EDUCATION

---

### University of Texas at Austin

Expected May 2026

*B.S., Petroleum Engineering*

*Austin, TX*

- Minor in Statistics and Data Science
- As of Spring 2025: GPA 3.37
- University Honors: Dean's List (Spring 2024, Fall 2024)
